SKILLS

Languages: Python, Core
Java, Nodejs, HTML, CSS,
JavaScript , C , C++ , PHP

OS: Windows, Linux (Kali
linux)

Software: Apache, Nginx
, Docker

Database: MySQL,
MongoDB

Skills : Website
Development , scripting
tools , Solving CTF
challenges

LANGUAGES

Kannada
Native or Bilingual Proficiency

English
Full Professional Proficiency

Telugu
Native or Bilingual Proficiency

EDUCATION

B.E Computer Science and Engineering Ramaiah Institute of Technology (RIT)

08/2018 - Present

9.14

2nd PUC Vision PU College

06/2016 - 05/2018

92.5%

SSLC Pragathi High School

05/2016

94.56

COURSE

An Introduction to C++ (NPTEL)

Programming Data structures and Algorithms using python (NPTEL)

Application Security and Vulnerability Assessment course (CySeck)

Ethical Hacking Course (Internshala)

PERSONAL PROJECTS

Plasma Donor Finder

- This is a simple website where users can create account and profile . Anyone can search for plasma donors who are willing to donate they can contact them using details provided inside website. Languages(Html CSS NodeJs and mongodb) .

Vulnerability Scanner tool

- We created a website for testing with vulnerabilities and A python script which crawls over entire website and checks for OWASP top 10 vulnerabilities using different payloads and scripts and finally generate report .

ACHIEVEMENTS

Secured 6th place in "Grand Challenge of March for Secure code" CTF competition conducted by CySeck.

Attended 'ALICE AND BOB IN CRYPTOLAND Engineers in Cyber Security ' workshop conducted by IEEE RIT .
